What are the risk and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

We have classified this product as 2 out of 7, which is a low risk class. This classification rates the potential losses from future performance at a low level, and poor market conditions could affect the value of your investment. This classification is not guaranteed and may change over time and may not be a reliable indication of the future risk profile of the Fund. The lowest category does not mean risk free.

The **summary risk indicator** is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Performance Scenarios

Recommended holding period: 3 years Example Investment: : 10 000 EUR		If you exit after 1 year	If you exit After 3 years [recommended holding period]
Stress	What you might get back after costs	7 220.00	7 320.00
	Average return each year	-27.80%	-9.88%
Unfavourable	What you might get back after costs	7 220.00	7 320.00
	Average return each year	-27.80%	-9.88%
Moderate	What you might get back after costs	10 050.00	9 940.00
	Average return each year	0.51%	-0.20%
Favourable	What you might get back after costs	12 720.00	12 990.00
	Average return each year	27.17%	9.11%

This table shows the money you could get back over the next 3 years, under different scenarios, assuming that you invest EUR 10,000. The scenarios shown illustrate how your investment could perform. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the fund. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. The figures shown include all the costs of the fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if CBL Asset Management IPAS is unable to pay out?

The Fund's assets are managed and kept separately from the assets of CBL Asset Management IPAS, the custodian bank and other investment funds and structures managed by CBL Asset Management IPAS. The Fund investor is not responsible for the obligations of CBL Asset Management IPAS in accordance with the applicable laws of the Republic of Latvia. Invested assets may be subject to the investor protection and deposit guarantee systems intended for the account holder of the financial instrument. If the fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment.
